Professional Expertise

Nicole joined Cushman & Wakefield in 2016 as a Director of Transitions & Transformation. She is a corporate real estate executive with over 20 years of global experience focusing on operational optimization and cost effective facility management. Nicole has a proven record of achieving cost savings through real estate strategy, process improvement and contract negotiation. She has specialized experience in ensuring regulatory compliance and risk management of critical systems and operations.

Nicole is responsible for identifying and executing opportunities for existing and new clients. She provides subject matter expertise, operational consulting, and thought leadership for transitions and transformations. Additionally, she provides solutions for organizational structures, work flow process and optimization.

Prior to her role at Cushman & Wakefield, she held platform level-roles at other service providers and led corporate real estate on the client side.
